

**International Workshop on the Fixed point and
Rough set theories, and Applied topology
(IWFRRAT-2018, CBNU)**

- Venue: Department of Mathematics Education
(College of Educations Bd.(6-1), Chonbuk National University)
(<http://www.jbnu.ac.kr/eng/>)
- Dates: June 18 - June 20, 2018
(arrival: June 17; departure: June 21)
- Registration fee: free
- Accommodation: Guest house of Chonbuk National University
(<http://hunsan.jbnu.ac.kr/>):
Contributed speakers need pay their accommodation fees
for their lodging (45 US dollars per night).
- Deadline for abstracts: May 1, 2018
- Organizers: Sang-Eon Han (Chonbuk National University),
Yeol Je Cho (Gyeongsang National University)
- Aims and Descriptions: This workshop focuses on the fields
of fixed point and rough set theories as well as applied
topology. Indeed, these areas can contribute to applied sciences
such as artificial intelligence, big data analysis, digital geometry
and so on. Thus the organizers welcome scholars interested in
these areas and exchange our ideas by their presentations in
this workshop.
